PROFESSIONAL SUMMARY

Executive cybersecurity leader with 18+ years directing enterprise information security strategy, governance, risk, and compliance for large-scale government, public safety, healthcare, and global enterprise organizations. Currently serving as Acting CISO for NYC's Fire Department (FDNY)—the nation's largest fire department with 17,000+ personnel and 2M+ annual emergency calls—overseeing a multi-million-dollar cybersecurity portfolio spanning zero-trust architecture, cloud security, AI-aided SOC operations, and regulatory compliance. Proven record delivering SOC 2 Type II (first major metropolitan fire department), FedRAMP authorization, and 98% audit pass rates across NIST 800-53, ISO 27001, HIPAA, CJIS, and NYDFS frameworks. Combines deep technical expertise in EDR/XDR, SIEM, IAM/PAM, and vulnerability management with executive communication skills for board-level, mayoral, and interagency audiences. Early adopter of AI governance and agentic AI security aligned to NIST AI RMF, ISO/IEC 42001, and the EU AI Act.

CORE COMPETENCIES

- Enterprise Cybersecurity Strategy & CISO/Deputy Commissioner Leadership
- Citywide Cybersecurity Policy, Interagency Coordination & Governance
- GRC & Regulatory Compliance (NIST 800-53/CSF/RMF, ISO 27001, SOC 2, FedRAMP, HIPAA, CJIS, NYDFS)
- Zero-Trust Architecture, Cloud Security (Azure/AWS), SIEM, EDR/XDR
- AI Governance, Agentic AI Security, NIST AI RMF, ISO/IEC 42001
- Budget & Portfolio Management (Multi-Million-Dollar Programs, PMO)
- Vendor Risk Management & Contract Negotiation (50+ Third Parties)
- Incident Response, Threat Intelligence & Business Continuity / Disaster Recovery
- IAM/PAM, DLP, Vulnerability Management & Endpoint Protection
- Executive & Board Reporting, KRI/KPI Dashboards, Security Metrics
- Team Building, Mentorship, Cross-Functional & Interagency Leadership

PROFESSIONAL EXPERIENCE

Acting CISO / Deputy Commissioner-Level Cybersecurity Executive & ISSO

Fire Department of the City of New York (FDNY) — Brooklyn, NY

2016 – Present

- Serve as Acting CISO for NYC's largest public safety agency (17,000+ employees, 2M+ annual emergency calls), setting enterprise-wide cybersecurity strategy, policy, and architecture for 911/CAD, EMS, and all mission-critical platforms.
- Direct a multi-million-dollar cybersecurity portfolio encompassing zero-trust architecture, cloud migration (Azure/AWS), SIEM/EDR/XDR, IAM/PAM, DLP, endpoint hardening, and AI-aided threat detection across hybrid environments.
- Led FDNY to become the first major metropolitan fire department to achieve SOC 2 Type II certification; delivered FedRAMP authorization for EMS cloud systems; maintained a 98% audit pass rate across NIST 800-53, ISO 27001, HIPAA, CJIS, and NYDFS Part 500.
- Deployed CrowdStrike Falcon EDR on 800+ endpoints, implemented DMARC with Global Cyber Alliance (90% reduction in email spoofing), and drove a 70% reduction in critical vulnerability exposure via Rapid7, Tenable, Qualys, and ARMIS.
- Designed and operationalized AI-aided SOC workflows using GenAI copilots and agentic automation for triage, alert enrichment, threat hunting, and phishing analysis—reducing mean-time-to-contain and analyst toil.
- Launched FDNY's AI governance program: model inventory, data lineage, risk tiering, prompt/output logging, and red-team protocols aligned to NIST AI RMF 1.0 and ISO/IEC 42001; partnered with NYC OTI/DCAS on citywide AI policy.

- Led end-to-end incident lifecycle management for 40+ annual security events in coordination with NYC Cyber Command, achieving zero operational disruption to 911/CAD and emergency services.
- Managed vendor risk for 50+ third parties (Motorola, Accenture, CrowdStrike, Fortinet, Palo Alto, Forcepoint); negotiated SLAs, contracts, and security clauses.
- Built and matured a centralized GRC program (ServiceNow GRC, RSA Archer): risk register, control library, KRIs, POA&M tracking, and audit evidence management.
- Provided board-level cyber posture analytics and strategic recommendations to FDNY executive staff, NYC DCAS, OTI, and mayoral oversight committees.

Technical Innovation & Cybersecurity Program Manager

NYC Department of Health & Mental Hygiene (DOHMH) — Queens, NY

2012 – 2016

- Managed enterprise cybersecurity and IT modernization programs securing 40+ healthcare applications serving 8.5 million NYC residents across HIPAA, NYDFS, NIST CSF, and ISO 27001 frameworks.
- Implemented IAM, MFA, SIEM (Splunk), and vulnerability management across Azure and AWS environments; established DevSecOps pipeline practices and zero-trust architecture baselines.
- Led rapid security authorization of 15 emergency response platforms during COVID-19, meeting compressed timelines without compromising regulatory posture.
- Established cross-agency GRC processes adopted by C-Suite and city leadership for ongoing compliance monitoring and risk management.

EARLIER CAREER

IT Risk Analyst & Compliance Officer

Medisys Health Network — NYC

2009 – 2012

- Led HIPAA, SOX, and PCI-DSS compliance for a 3,000-user healthcare network; reduced critical exposures by 60% through automated vulnerability management and remediation workflows.

Risk & IT Governance Analyst / EDI & 3PL PM

G-Star RAW — Amsterdam, NL

2007 – 2009

- Led controls, vendor risk reviews, EDI integration, and supply-chain technology projects for EU payment and health data systems.

Head of Technical & EHR Development

King Saud Medical City — Riyadh, KSA

2008 – 2012

- Directed hospital computerization, EMR, and IVR rollouts, migrating manual workflows to enterprise automation for a large government medical facility.

KEY ACHIEVEMENTS

- SOC 2 Type II — First major metropolitan fire department to achieve certification.
- FedRAMP authorization delivered for mission-critical EMS cloud systems.
- 70% reduction in critical vulnerability exposure through risk-based remediation programs.
- 90% reduction in email spoofing after DMARC deployment with Global Cyber Alliance.
- 98% audit pass rate across NIST 800-53, ISO 27001, HIPAA, CJIS, NYDFS.
- 99.97% uptime maintained for 911/CAD during major cybersecurity upgrades.
- Zero operational disruption to emergency services across 40+ annual security incidents.
- Launched AI-aided SOC copilots and AI governance program for NYC's largest public safety agency.

PROFESSIONAL CERTIFICATIONS

CISM (ISACA) • CISA (ISACA) • CCSP (ISC²) • PMP (PMI) • ITIL 4 Foundation • GIAC GSEC • CCNA Security

In Progress: IAPP AIGP • ISO/IEC 42001 Lead Implementer

TECHNICAL PROFICIENCIES

Security Frameworks: NIST 800-53/CSF/RMF, ISO 27001/27017/27018, SOC 2 Type II, FedRAMP, CJIS, HIPAA, PCI-DSS, NYDFS Part 500, COBIT, CIS Controls v8

AI & Agentic Security: NIST AI RMF 1.0, ISO/IEC 42001, EU AI Act, OWASP LLM Top 10, MITRE ATLAS, AI Red-Teaming, Microsoft Security Copilot, Azure AI Content Safety, Purview for AI Governance

Detection & Response: CrowdStrike Falcon EDR/XDR, Splunk ES, IBM QRadar, Microsoft Sentinel, LogRhythm, ExtraHop, Carbon Black

Cloud & Network: Microsoft Azure (Defender, Sentinel, Purview), AWS (GuardDuty, Security Hub, IAM), CSPM, Palo Alto, Fortinet, Cisco Firepower, Zero-Trust Architecture

IAM & PAM: Okta, Azure AD/Entra ID, CyberArk, SailPoint IdentityIQ, SAML/OAuth/OIDC, MFA, PKI

Vulnerability & Offensive: Rapid7 InsightVM, Tenable Nessus, Qualys, ARMIS, Burp Suite Pro, Metasploit, OWASP ZAP

DevSecOps & Automation: Jenkins, GitHub Actions, GitLab CI/CD, Docker, Kubernetes, Terraform, IaC Scanning, Python, PowerShell, Bash

GRC & PMO: ServiceNow GRC, RSA Archer, MetricStream, Jira, Confluence, MS Project, Oracle PPM

EDUCATION

B.Sc., Business Information Systems — University of East London, United Kingdom

Diploma, Information Technology & Engineering — University of Queensland, Australia
